REDUCED PRICE: ACT RDS/RGEN Pump Repair

Rebuild to "Like New" Condition with New Diaphragm - 1 Year Warranty!

Good news for ACT users with RDS/RGEN pumps. Our repair center has streamlined processes for rebuilding these pumps with **new** components and we are passing along the savings to you!

RDS/RGEN pumps have a fixed life. Instead of replacing them with costly upgrades that will take your tool down to implement, consider rebuilding your existing surplus pumps for quick replacement. If you are already repairing your pumps, understand that content & process determines quality.

Rite Track offers quick-turn, fixed-price rebuild services, specifically for RDS/RGEN pumps.

- Unlike other providers, **we replace the diaphragm** - a leading cause of failure.
- We also provide **new common-fail items** as listed to insure reliability.
- The unit is fully calibrated and **tested on our ACT test bed**.
- You receive a **'like-new'** RDS/RGEN pump with a one year limited warranty for quick use at a fraction of new replacement cost.
- **Save your parts budget** by recycling your existing non-functional pumps through our certified rebuild program
- **Improve your uptime and MTTR** with rebuilt pumps on your shelf for quick, form-fit-function replacement as needed.

Contact your regional Rite Track office or sales representative for more information. To see our full line of repair services, [click here](#) for more savings.
