

Job Posting

Rite Track is a unique company serving the high tech semiconductor business from the Midwest. Our customer list reads like a Who's Who of Fortune 500 companies including major semiconductor, military, and aviation giants. We even played a role in putting the first rover on Mars. We are looking for a few outstanding people to help facilitate our growth and better position us for success.

CIRCUIT BOARD ASSEMBLY TECHNICIAN

Rite Track is looking for full time Circuit Board Assembly Technician responsible for building, testing, repairing, and troubleshooting of printed circuit boards.

RESPONSIBILITIES

- Assemble printed circuit board assemblies using industry standard equipment and protocol.
- Repair defective printed circuit board assemblies using soldering and de-soldering equipment
- Visual PCB inspection
- Testing and validating of manufactured printed circuit boards using developed practices.

REQUIRED

- Good work history and strong work ethic
- Ability to meet or exceed quality and cosmetic standards in the following areas:
 - Soldering
 - Wire harnessing & cabling
 - Utilize fixtures, meters, and other test equipment to validate functionality
 - Read PCB assembly sheets
 - ESD Protocol
- Position requires operating a computer terminal, standing for occasional periods of time.
- Willingness to learn and succeed

PREFERRED

- 2 years or more of experience with printed circuit manufacturing
- Basic operations of a digital volt meter
- Ability to manage time and tasks to meet target dates while meeting or exceeding quality goals
- Ability to assist in:
 - Creation and improvement of manufacturing standards and procedures
 - Quality Inspections
 - Creation of standardized test procedures
- Competency in manufacturing, troubleshooting, and basic repair of printed circuit boards

EDUCATION

- High School Diploma, Associate Degree (EET preferred), or equivalent experience.
